# Bradley Nguyen

647-686-9717 | bradleynguyen2004@gmail.com | Portfolio | LinkedIn | GitHub

## Education

**Carleton University, Bachelor of Computer Science (Co-op)** Ottawa, ON
*Major CGPA: 10.19/12.0* *2023 – 2028*

**Relevant Coursework:** Abstract Data Types and Algorithms, Object-Oriented Software Engineering, Web Development, Programming Paradigms, Database Management Systems, Operating Systems

## Experience

**Tangerine** Sep. 2026 – Present
*Project Management Intern | Co-op | Tenable, Checkmarx, Scrum, SDLC* *Toronto, ON*

- Conducted **8+ stakeholder** discovery sessions across Cybersecurity, Infrastructure, and Application teams to analyze enterprise vulnerability management along with reporting workflows
- Documented and assessed process supporting **40,000+ enterprise vulnerabilities**, identifying opportunities to improve reporting, triage, and remediation tracking

**Innovation, Science and Economic Development Canada** May 2026 – Aug. 2026
*Data Engineer Intern | Co-op | AWS, Python, Oracle SQL* *Ottawa, ON*

- Developed ETL scripts to load, transform, and validate **Salesforce CRM** data from **3+ source datasets** into staging tables, reducing manual processing by **40%** and improving daily data delivery reliability
- Implemented end-to-end ETL validation and logging on **EC2-hosted runners and AWS Lambda** to catch load errors and improve release reliability

**Lux Cognitiva Technologies Inc.** May 2026 – Aug. 2026
*Software Engineer | Contract Part-Time | TypeScript, Prisma, PostgreSQL, AWS* *Remote*

- Built a **Health Canada DPD** sync and search API using **TypeScript**, **Prisma**, and **PostgreSQL**, with migrations, Zod validation, and integration tests
- Developed scheduling APIs with **6 Prisma models**, **6 routes**, RBAC/audit enforcement, and backend test coverage for visit workflow logic

**dynaCERT Inc.** May 2025 – Dec. 2025
*Software Developer Intern | Co-op | TypeScript, React, Node.js, C++, MySQL, Docker* *Toronto, ON*

- Architected and deployed a **React/TypeScript** industrial IoT dashboard (**Node.js + MySQL**), processing real-time telemetry for **450+ $H_2$** generator units
- Built a **real-time telemetry ETL pipeline** for $H_2$ generators, parsing **40+ sensor fields** from **ZeroMQ streams** into MySQL with validation and error handling

## Projects

**Dumpster Diver** | GitHub | *Python, TensorFlow, Keras, Arduino, SQLite, Flask, PHP*

- **Winner** at **cuHacking 6** ($300, 300+ participants) for an **IoT-enabled waste sorting system** using **TensorFlow CNNs**, **Flask APIs**, and Arduino servos for automated material classification, processing **100+ items/min** with **95% accuracy**

## Extracurricular Activities

**cuHacking** Sep. 2025 – Jun. 2026
*Hacker Experience Team Lead* *Ottawa, ON*

- Coordinated and enhanced the participant experience for **300+ hackers** through event planning, workshops, and sponsor engagement initiatives

## Technical Skills

**Languages**: Python, C++, C, Java, SQL (Postgres), JavaScript, TypeScript, HTML/CSS
**Frameworks/Libraries**: React, Next.js, Node.js, Express.js, Three.js, Flask, Tailwind, Vite, MongoDB, Selenium
**Developer Tools:** Git, GitHub, Docker, GCP, Linux/Unix, Jira, Vercel, Power BI, Azure, AWS, Playwright, OAuth
